

# **Gefen TOOLBOX**

These products offer an alternative to rack mountable solutions, easily packaged for transport in the field, and with the ability to wall mount for immediate use in the working environment behind the scenes. It is priced very cost-effectively, but still retains the quality and reliability of other similar Gefen products. Initial Products packaged under the Gefen ToolBox line include:

1. The Mini 1:4 Splitter for HDMI
2. The Mini 1:8 Splitter for HDMI
3. The Mini 4x1 Switcher for HDMI
4. The Mini 4x2 Matrix for HDMI
5. The Mini 4x4 Matrix for HDMI

## **Why Gefen ToolBox?**

As the leader in digital connectivity, Gefen decided to launch a new service line called Gefen ToolBox. It is designed to offer portable, effective solutions to common system integration situations, premiering with compact solutions for audio/video devices using HDMI connectivity.

The “Mini” solutions will include all connection cables for immediate installation. All HDMI connectors are equipped with a locking mechanism to eliminate cable disconnects. All products are intended to be wall-mounted, small in size and come finished in a glossy color to blend with most common wall color types.

**New Concept. New Design. Same Gefen Quality**
